European Finances Far from Panicky

be for a few weeks at least.

By Associated Press Leased Wire

Paris, Tuesday, March 25.—(Delayed.) -Persistent rumors that all Europe is on the verge of a financial collapse are not justified by the facts, a prominent American financial expert, who has been engaged for many months in studying the problems facing the peace conference, said in a statement today.

Conditions were serious, he added, but not panicky, and will doubtless be relieved greatly when peace is signed and the embargoes lifted. Great Britain with a war debt of

\$40,000,000,000, the financier added, is in a situation comparing favorably with her debt and per capita wealth at the end of the Napoleonic wars. SOLDIERS' LETTERS

FROM JAKE SNYDER.

The following letters have been re ceived by Mr. and Mrs. Ben Snyder of this city from their son, Jake, who is with the American army of occupation

> Alflen, Germany, February 27.

Hell Dad and Mother:-Your letter came yesterday of Jan pretty good time don't you think? I have moved again as you will see. When we don't have anything else to to why we move. They must keep us busy. I have good quarters here, good bed and a clean room. It is the largest house in town. The colonel has his quarters in the same house. The people are very nice, they do my washing and is more homelike and probably will e my home for some time, maybe a year before we get back, who can tell? Just got a letter from Peg, she has ad the flu twice, ought to be enough for one I think. So you are having fine weather. We are having lots of rain and the roads are getting bad. Our trucks cut them up pretty much. These ads here were never built for cars, all they have here is oxen and cows. You never see a horse, they do all of their work with the cows and it is pretty slow work. I saw a German the other day with a bunch of wool and I asked him what it was worth and he But Three Illinois said 21 marks a pound, that is \$2.10 a in our money and before the wa was ten cents a pound. What would Incle Jake say to that if he had to pay that much for wool. And that is the way with everything. Candy if four solfars a pound and before the war the same candy you could buy for 20 cents

They sure are paying for it now and Ill. for the next hundred years and thus it goes. Your helmet is on the ook out for it. Have a pin for her that I will send in a few days. By the way I broke my pen working on the car. It is no use I cannot keep a fountain pen. So Jim Sterling is at Trier, that is about forty miles from I may get there some day and will look him up. A part of our regiment have moved down on the Meuse river which will be great this summer. Dad, guess it is time to hit the Hope you are all well, love to mother and granddad and tell him I tope he has many more birthdays. Give thy best to all the boys and tell that lieutenant that he won't have to give ip my room for some time as I will ave to see this thing to the end. Good JAKE SNYDER.

Ulmen, Germany,

Hell Dad and Mother:-

Just a note at this time as there has been nothing of any importance happen this week. Today is Sunday and I have been sleeping most of the day. It is one of those cold and rainy days. Wish I had some Dixon papers or something o read to pass the time away. Nothing to do here at night but go to bed.

I guess our friend, Wilson told them where to get off. He can do it all right, but what get me is Thompson of Chicago. What are the people thinking of? And Sweitzer, there isn't much choice. There is a bunch of Chicago fellows in our outfit and they said if they were home they would vote for Sweitzer as they knew that he was a real German and that they could not depend on Thompson and that is about right. They had better have a good German there than a poor one. Who do you think will be mayor of Dixon? So do I. I think that Martin Gannon would make a good mayor and I guess that he would fill the place alright. Well, Dad, how is business, must cut this. Give my best to all. Have you got the helmet yet? Love to mother and granddad.

JAKE SNYDER.

Ulmen, Germany,

Dear Dad and Mother:-Your letter came today of February 17th. Better service, also a letter from Martin. He writes just like he talks and writes some leter. He said he had some good cases. I wander if they are pints or quarts. You tell that lieutenant that I will take him up on that job. That is a good company and I know what Goodyear's are because I have them on my car and have ran over three thousand miles without a blowout or puncture as yet. The tread is hard

ly worn at all. I have been working on the car the last two days. Got it all cleaned up and took it down to the creek and gave it a bath. She sure looks fine. I am olog to Coblenz Saturday to stay over unday and hope to see Bill Albright.

THE BLACK BELT EXTENDING.

The migration of negroes from South to North is the subject of investigation and report by the Department of Labor A considerable migration began in 1912 in response to the demands of an insticient general labor supply caused by the establishment of large war industries, but the Department's figures deal with the shift of population during the eighteen months ending with 1917. The estimates of the several Southern States place the total number of outgoing negroes during that period at 350,-000, but the Department of Labor fixes on the more conservative estimate of 200,000, which number will of course be greatly increased when the figures

It is altogether probable that Northward and Westward migration of negroes looking for higher wages and better opportunities will continue more ity of the adventurers will return to cause disturbance until the Southern labor market becomes adjusted, but in the end the South is likely to gain in more ways than one. To divide its crowded negro population and its longstanding "problem" with the other sections of the country would seem to be the ideal solution from the intelligent Southern point of view. On the other hand, the North will import a "prob will not be so serious. The distribution of the negro population throughout the country has been regarded by philosophical and disinterested observers as the best and most equitable solution that appears to be possible.

VENIZELO'S BODY **GUARD MARVEL OF** ALL OTHER CORPS

Approach of Premier of Greece Always Well Heralded.

By Associated Press Leased Wire Paris, March 2,-(Correspondence of The Associated Press.)-Kings, presidents and premiers have ceased to be a novelty at the Peace Conference, but the bodyguard of Premier Venizelos of Greece, never fails to attract great crowds. At the hotel where the American delegation is housed and at the Foreign office, Venizelos' approach is always heralded by the arrival of one of his Cretan soldiers arrayed more bril-

liantly than a comic opera bandit. The Cretans who escort the Greek statesman are all more than six feet tall and apparently have been chosen from various organizatons as a different man appears daily, and the same uniform is never seen twice. The swarthy Cretans all have small waxed mustaches twisted into upturned points and stand rigidly at attention for hours while awaiting M. Venizelos at the entrance to the hote or the Foreign office. The jibes of small boys and the jokes of various allied soldiers who gather in wonderment never seem to disturb the imperturbable Cre

The knives and swords worn by th Cretons are the chief feature of the uniforms and make collectors of antique weapons very envious. They are of all sizes and shapes and have sheaths of great splendor, jeweled and carved in a marvellous manner.

Some of the guards are bare-kneed and have costumes not unlike the Scotch in style but much gaudier in color. Others wear marvellowly deorated leggins reaching far above the knees. Capes of oriental hues are frequently worn by the Cretons and add to the brilliancy of the Greek uniforms which make the fancy dress uniforms of the French and English look sombre.

WANT PARADE OF THIRTY-THIRD IN CHICAGO IN MAY

Soldiers Returning from Overseas Express That Desire.

Illinois men returning from service overseas are eager that the 23rd division, of which the former Dixon national guard company is a part, will be returned home intact and be given an opportunity to parade, probably in Chicago. They believe that Illinoisans should be given an opportunity of reviewing the heroes of many a successful drive

against the enemy. This sentiment was expressed yesterday by Captain A. H. Sheffield, of Chicago, formerly of the 33rd division and Capt. George Burton, of Pontiac, who arrived in New York in charge of 400 Illinois men in the 159th and 160th That line up there on France's fields infantry and the 26th engineers. The men went to Camps Mills and Merritt and are slated to entrain next week for

Camp Grant. Captain Sheffield was on Maj. Gen. George Bell's staff for many months and spoke in high terms of the wonderful fighting qualities of the Illinois guardsmen. Two hundred wounded Illiois men, principally Chicagoans, who arrived yesterday, were 33rd division soldiers wounded in the Argonne-Meuse drive. They also hope that the Prairie division will be able to return intact

Six hundred Illinoisans, who went in to the 27th division as replacements marched with Major-General O'Ryan's New York organization in New York Tuesday and soon will be on their way to Camp Grant to be mustered out.

How Great Organization **Reduces Cost**

RMOUR and Company grew to be a great business institution by saving the things that formerly were thrown away on the farm.

Pig bristles on the farm are worthless. Through our methods they are utilized in brush-Certain glands in hogs, once thrown away when the farmer did his own killing, are now made into medicinal preparations of high value. Even the hoofs and bones are

turned to commercial use. Each of these products is useful, adds something to life, health or comfort.

Edible Pork Products

Shoulders Tenderloin Trimmed Neck Boston Style Neck Ribs Ham Butts

Snouts Brains Slip Bones Sweetbreads Ears Hearts Neck Fat Melts Tongue Back Bones Knuckles

Tails Kidneys

Meat Meal Curled Hair Grease Covers for Glass Lard Containers Sausage Casings

The farmer shares in the returns from all these products. If it were not for the size of this organization and the facilities for transforming every

usable ounce of the hog, the packer would either have to charge the public more for pork or buy hogs from the grower at a lower figure.

The value of anything depends upon its ultimate use-It is only because concerns like Armour have utmost utility out of the livestock they buy that it is possible to pay farmers more for their animals and yet provide food for the public at true-

With large volume it becomes possible to make the heavy investments in machinery and equipment necessary to develop new processes and new products. Often it costs hundreds of thousands of dollars in research and experiment before a single pound of some new product can successfully be put upon the market. Such preliminary work is usually beyond the scope of institutions which lack these facilities.
